**Richland County Regional Planning Commission
Transportation Improvement Program (TIP)
SFY 2024 - 2027**

**CHAPTER 1
INTRODUCTION**

Introduction to Richland County Regional Planning Commission

**Richland County Regional Planning Commission (RCRPC) and the
Metropolitan Planning Organization (MPO)**

The MPO for the Mansfield Urbanized Area is the Coordinating Committee of the Continuing Comprehensive Land Use and Transportation Study. The MPO is organized through the RCRPC, which operates under the provisions of Section 713.21 & 713.23 of the Ohio Revised Code.

In 1959, a group of Richland County community leaders saw the need for planning. They envisioned that the issues a regional planning agency could address would range from infrastructure to zoning. They wanted to deal with issues affecting the development of the region as a whole, or more than one political subdivision within the region, which do not begin and terminate within the boundaries of any single municipality.

The City of Mansfield and Richland County Commissioner's jointly created the RCRPC in 1959 to undertake this planning. The organization carries on today, still true to its original purpose -- most notably the ongoing focus on issues that *affect the development of the Region as a whole*.

In 1966 it was decided that the most appropriate existing agency in Richland County to perform the Comprehensive Land Use and Transportation Study was the Regional Planning Commission. However, due to the fact that there were conflicts in the rules and regulations governing membership on the RCRPC and membership on the Policy Body of the Comprehensive Land Use and Transportation Study, it was necessary that a separate autonomous body, the "Coordinating Committee", be formed to oversee this new transportation responsibility.

Regional Vision

Richland County will have a transportation system that meets the needs of the 21st Century. A truly multimodal system will operate to move people and goods safely and efficiently throughout Richland County.

The development of Richland County will be supported by a framework of transportation options, with the goal of protecting physical, social and economic environments.

Mobility and access will be optimized by a balanced system of roadway networks, transit, rail freight, pedestrian, and bicycle modes.

There are five core functions of the RCRPC MPO:

- 1) **Establish a setting**: Establish and provide a fair and impartial setting for effective regional transportation related decision making in Richland County.
- 2) **Evaluate alternatives**: Evaluate transportation alternatives, scaled to the size and complexity of the region, to the nature of its transportation issues, and to the realistically available options, including funding resources.
- 3) **Maintain a Long-Range Transportation Plan (LRTP)**: Develop and update a long-range transportation plan for the area which spans a planning horizon of at least twenty (20) years. This plan should foster mobility and access for people and goods, efficient system performance and preservation, and improved quality of life.
- 4) **Develop a Transportation Improvement Program (TIP)**: Develop a four (4) year project implementation program that is based on the long-range transportation plan, and designed to serve the area's goals, using spending, regulating, operating, management, and financial tools.
- 5) **Involve the Public**: Ensure that the general public, and all of the significantly affected sub-groups, have the opportunity to be actively involved in the core functions that are listed above

The Richland County Regional Planning Commission employs a staff of professionals to undertake a variety of programs and projects.

Primary Responsibilities of Richland County Regional Planning Commission

MPOs, such as Richland County Regional Planning Commission are responsible for conducting an array of transportation planning activities, providing technical services and distributing transportation planning and project funding for their member communities and agencies, as established in 23 CFR 450 Subpart C. MPOs are responsible for creating several key recurring planning documents. These required planning documents include:

- A multimodal, long-range transportation plan (LRTP) for the region
- A biennial transportation improvement program (TIP)
- An annual unified planning work program (UPWP)

TIP Overview

The TIP is a comprehensive and financially constrained listing of regional transportation projects and services that are scheduled for some phase of implementation within the four-year TIP period. The Infrastructure Investment and Jobs Act (IIJA) also known as the “Bipartisan Infrastructure Law” (BIL) was signed into law November 2021. The IIJA continues the metropolitan planning process and a Continuous, Comprehensive, and Cooperative (3C) framework for making transportation investment decisions in metropolitan areas. The projects identified in this TIP were selected utilizing this 3C planning process in cooperation with Richland County Regional Planning Commission, USDOT, the State of Ohio, and local entities, and are in alignment with the goals of the RCRPC long range plan titled “Direction Looking Forward 2045”. The projects have funding commitments from a variety of federal, state and local sources. The program of projects maintains a balance of local and regional needs and includes projects from all modes of transportation including highways, public transportation, bicycles and pedestrians.

The development of the TIP is the responsibility of Richland County Regional Planning Commission, which is the designated MPO for Richland County. The TIP is developed on a biennial basis in conjunction with the development of the Statewide Transportation Improvement Program (STIP). Once the TIP is adopted by the Coordinating Committee, it is then submitted to ODOT and U.S. DOT for approval and inclusion by reference into Ohio’s STIP.

Consistency with the Long-Range Transportation Plan

Richland County Regional Planning Commission completed its long-range transportation plan (LRTP) titled “Direction Looking Forward 2045” in 2020. These long-range plans are federally required to cover a minimum 20-year time horizon and must analyze all transportation needs over that time period, including roadway, bridge, transit, and non-motorized modes of travel. https://www.rcrpc.org/files/ugd/1b25ec_8e69acb73e4b40099b747d0e637c1129.pdf (appendix A)

The goals, objectives and strategies stated in the long-range transportation plan establish Richland County Regional Planning Commission’s overall approach to the prioritization of transportation projects and investments. These goals and their descriptions are included below in Table 1.

Table 1 - Transportation Plan Goals

Goal	Goal Statement	Objectives
Safety	Transportation modes and facilities in the region will be safe for all users	<ul style="list-style-type: none"> • Reduce the total number of crashes • Reduce crash severity • Prevent bicycle and pedestrian crashes
Economic Vitality	A regional transportation system that supports and furthers economic vitality.	<ul style="list-style-type: none"> • Integrate transportation and land use planning • Improve multimodal freight system for the movement of goods • Improve access to and from major employment areas.
System Preservation and Reliability	Preserve, operate, and manage an efficient transportation system	<ul style="list-style-type: none"> • Maintain a reliable transportation infrastructure in a state of good repair. • Improve and optimize the existing system through innovative transportation system management and operations.
Public Involvement	Use public participation to reflect the needs of the region, particularly those that are traditionally underserved.	<ul style="list-style-type: none"> • Provide opportunities to engage citizens, as well as, public and private sector entities. • Consider and respond as appropriate to all comments and concerns.
Quality of Life	Enhance quality of life and promote sustainability	<ul style="list-style-type: none"> • Protect the environment from any adverse impacts of the transportation system • Provide users access to a network of transportation modes and infrastructure that maximizes connectivity promoting both motorized and non-motorized modes of travel • Support active living, universal design, and place making. • Ensure the benefits and impacts of transportation investments are equitably distributed.

Glossary of Terms and Acronyms

1. **ATAC** Agency Transportation Advisory Committee
2. **CO** Construction
3. **DD** Detailed Design
4. **DOJ** Department of Justice
5. **EJ** Environmental Justice
6. **ENV** Preliminary Engineering/Environmental
7. **FAST Act** Fixing America's Surface Transportation
8. **FHWA** Federal Highway Administration
9. **FTA** Federal Transit Administration
10. **ISTEA** Intermodal Surface Transportation Efficiency Act
11. **LEP** Limited English Proficiency
12. **LRTP** Long Range Transportation Plan
13. **MAP-21** Moving Ahead for Progress in the 21st Century Act
14. **MPO** Metropolitan Planning Organization
15. **ODOT** Ohio Department of Transportation
16. **PID No.** Project Identification Number
17. **PIP** Public Involvement Plan
18. **Project Sponsor** The unit of government or agency that initiated the project, charged with implementation responsibility and assigned local share.
19. **RCRPC** Richland County Regional Planning Commission
20. **RCT** Richland County Transit
21. **RCTB** Richland County Transit Board
22. **RW** Right-of-way
23. **SFY** State Fiscal Year
24. **SP** Planning
25. **SR** Research
26. **STIP** Statewide Transportation Improvement Program
27. **TAC** Technical Advisory Committee
28. **TDP** Transit Development Program
29. **TIP** Transportation Improvement Program
30. **TR** Transit
31. **UPWP** Unified Planning Work Program

CHAPTER 2

PERFORMANCE BASED PLANNING AND PROGRAMMING

Introduction to Transportation Performance Management

FHWA and FTA have developed a series of performance measures that every state must monitor to determine how effectively their transportation investments are advancing the national performance goals (23 CFR 490). As reaffirmed in the BiPartisan Infrastructure bill, Statewide transportation targets have been established for each of these performance metrics. The targets were established by a coordinated effort between ODOT and the MPOs.

Richland County Regional Planning Commission has approved supporting ODOT in achieving the State Wide Performance Measure Targets.

Please refer to ODOT's Transportation System Performance Report [<https://www.transportation.ohio.gov/programs/statewide-planning-research/statewide-transportation-planning/01-transportation-system-performance-report>] for additional information.

The following is information on the federally required transportation measures applicable to the RCRPC. Richland County Regional Planning Commission works with ODOT and other local transportation partners to ensure regional transportation projects are selected to effectively address the transportation performance measures.

PM1: Safety Performance Measures

23 CFR 490.207 requires states to establish five safety performance measures and set targets for those measures to demonstrate fatal and serious injury reductions on all public roads. The figure below shows the safety performance measures, baselines, and targets. These measures are evaluated on a 5-year rolling average.

- Number of Fatalities (highways)
 - Baseline: 1197
 - Target: 1173

- Fatality Rate (per 100 million vehicle miles traveled VMT)
 - Baseline: 1.06
 - Target: 1.04

- Number of Serious Injuries (highways)
 - Baseline: 7805
 - Target: 7649

- Rate of Serious Injuries (per 100 million VMT)
 - Baseline: 6.91
 - Target: 6.77

- Non-Motorized Fatalities & Serious Injuries
 - Baseline: 840
 - Target: 824

The table below shows the total projects and amount of money that is being invested to improve the safety of the Richland County Regional Planning Commission transportation system.

Highway STIP Project Impacts on Performance Measures

RCRPC

STIP Projects Improving Safety¹

Total Safety Projects	Total Safety \$ (Millions)	Projects with HSIP \$	HSIP \$ (Millions)
6	\$19.1 M	5	\$6.6 M

PM2: Infrastructure Condition Measures

23 CFR 490.307 and 23 CFR 490.407 establish performance measures to evaluate the condition of Ohio's National Highway System (NHS) pavements and bridges. The table below shows these performance measures along with their 2-year and 4-year targets.

NHS Pavement Performance Measures	2-year Target	4-year Target
Percentage of Interstate Pavements in Good Condition	N/A	> 55%
Percentage of Interstate Pavements in Poor Condition	N/A	< 1%
Percentage of Non-Interstate NHS Pavements in Good Condition	> 40%	> 40%
Percentage of Non-Interstate NHS Pavements in Poor Condition	< 2%	< 2%

NHS Bridge Performance Measures	2-year Target	4-year Target
Percentage of NHS Bridges in Good Condition	> 55%	> 55%
Percentage of NHS Bridges in Poor Condition	< 3%	< 3%

The table below show the total projects and amount of money that is being invested to maintain and improve pavement and bridge conditions in the Richland County Regional Planning Commission region during the TIP period.

Highway STIP Project Impacts on Performance Measures

RCRPC

STIP Projects Improving Safety¹

Total Safety Projects	Total Safety \$ (Millions)	Projects with HSIP \$	HSIP \$ (Millions)
6	\$19.1 M	5	\$6.6 M

1a Projects that have safety program funding or

1b Projects containing funding with one of the following federal improvement codes (Safety, Safety & Education of Pedestrians/Bicycles).

Note: HSIP funding is SAC 4HJ7.

STIP Projects Improving Pavements¹

Road Type	Number of Projects	Lane Miles Improved	Construction \$ (Millions)
Interstate	1	49	\$15.6 M
Non-Interstate NHS	2	17	\$27.9 M

1 Projects that have construction contract funds assigned to treated interstate or Non-Interstate NHS segments.

STIP Projects Improving NHS Bridges¹

Number of Projects	Bridges Improved	Construction \$ (Millions)
1	1	\$. M

1 Projects that have construction contract funds assigned to treaded bridges on the NHS system.

PM3: Travel Time Reliability and Congestion

Travel Time Reliability:

23 CFR 490.507 and 23 CFR 490.607 established the performance measures for the Level of Travel Time Reliability on Ohio's NHS system. The table below shows these performance measures along with their baselines, 2-year targets, and 4-year targets.

Level of Travel Time Reliability on NHS System	2-year Target	4-year Target
Percent of Person Miles Traveled on the Interstate that are reliable	> 85%	> 85%
Percent of Person Miles Traveled on the Non-Interstate NHS that are reliable	N/A	> 80%
Interstate Truck Travel Time Reliability Index	< 1.50	< 1.50

RCRPC does not have any projects currently programed to improve travel time reliability.

Transit Asset Management (TAM):

RCTB has set the following performance targets and measures for facilities, equipment, and revenue vehicles.

Rolling Stock Vehicles:

Rolling Stock Vehicles			
Asset Class	Automobile (ODOT)	Performance Target	Performance Measure
Bus	Heavy Duty Bus, Medium Duty Bus, Light Duty Bus	5% older than 14 years	13%
Cutaway Bus	Cutaway Bus	5% older than 10 years	8%

Transit Safety Performance:

Mode of Transit Service	Fatalities	Rate Per Total Vehicle Revenue Miles	Injuries	Rate Per Total Vehicle Revenue Miles	Safety Events	Rate Per Total Vehicle Revenue Miles System Reliability	System Reliability
DR	0	0	0	0	0	0	49,219
MB	0	0	1	0	2	0	31,766

CHAPTER 3

AIR QUALITY CONFORMITY

The United States Environmental Protection Agency (US EPA) monitors and sets National Ambient Air Quality Standards (NAAQS) for several transportation-related pollutants. The agency is responsible for determining whether each county in the United States is in attainment or non-attainment for each of those pollutants. Currently in Ohio, the pollutants include nitrogen oxide (NO_x), volatile organic compounds (VOC) and particulate matter 2.5 micrometers or smaller in size (PM^{2.5}).

The Richland County Study Area is considered to be an attainment area under the present CleanAir Act and meets the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide, or particulate matter. As such we are not subject to transportation conformity requirements. However, we feel that our planning program and improvement program lends itself to minimizing increases in emissions and maintaining the attainment status. Furthermore, the program lends itself to being expanded and redirected towards efforts related to mitigation should Richland County's status change.

CHAPTER 4

ENVIRONMENTAL JUSTICE ANALYSIS

Environmental Justice (EJ) requirements were established by Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations”. EJ requires all federally funded agencies, including Richland County Regional Planning Commission, to identify and address disproportionately high and adverse human health or environmental effects of their actions on minority and low-income populations, to the greatest extent practicable and permitted by law. Agencies must also develop strategies to address any disproportionate and adverse impacts that are brought to light.

There are three fundamental environmental justice principles:

1. Avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.
2. Ensure the full and fair participation of all potentially affected communities in the transportation decision-making process.
3. Prevent denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

Richland County Regional Planning Commission has adopted the following strategies to integrate EJ into the agency’s transportation planning strategy:

The process of picking stakeholders for a project will be tactfully done with a specific emphasis on getting members of the affected population and underserved populations. Underserved populations typically refer to racial and ethnic minorities, disabled, or people living in poverty. Other interested parties are businesses, transportation providers, or organizations with specific transportation needs. RCRPC will maintain an up-to-date database of contacts to facilitate stakeholder engagement.

Outreach/Inclusion

RCRPC will keep in mind ways to reach out and get involvement from underserved populations. This includes having a Language Assistance Plan and informing staff on helping people with a language barrier participate in involvement. RCRPC will also hold meetings in locations with transit access, offer multiple times for public involvement, plus provide on-line access to involve the public who cannot attend in-person public meetings but want to participate in public involvement.

Environmental Justice Analysis

The following analysis demonstrates the anticipated impact of the projects programmed within the SFY 2024 - 2027 TIP on the Richland County Regional Planning Commission region's minority and low-income populations.

Population Characteristics of Richland County		
Race	Population	Percentage of total Population
Caucasian	104,231	83%
Hispanic	2,615	2%
African American	11,216	9%
Other Races	1,514	1%
Two or More Races	5,360	4%
Total	124,936	100%
Poverty Status	16,741	13.40%

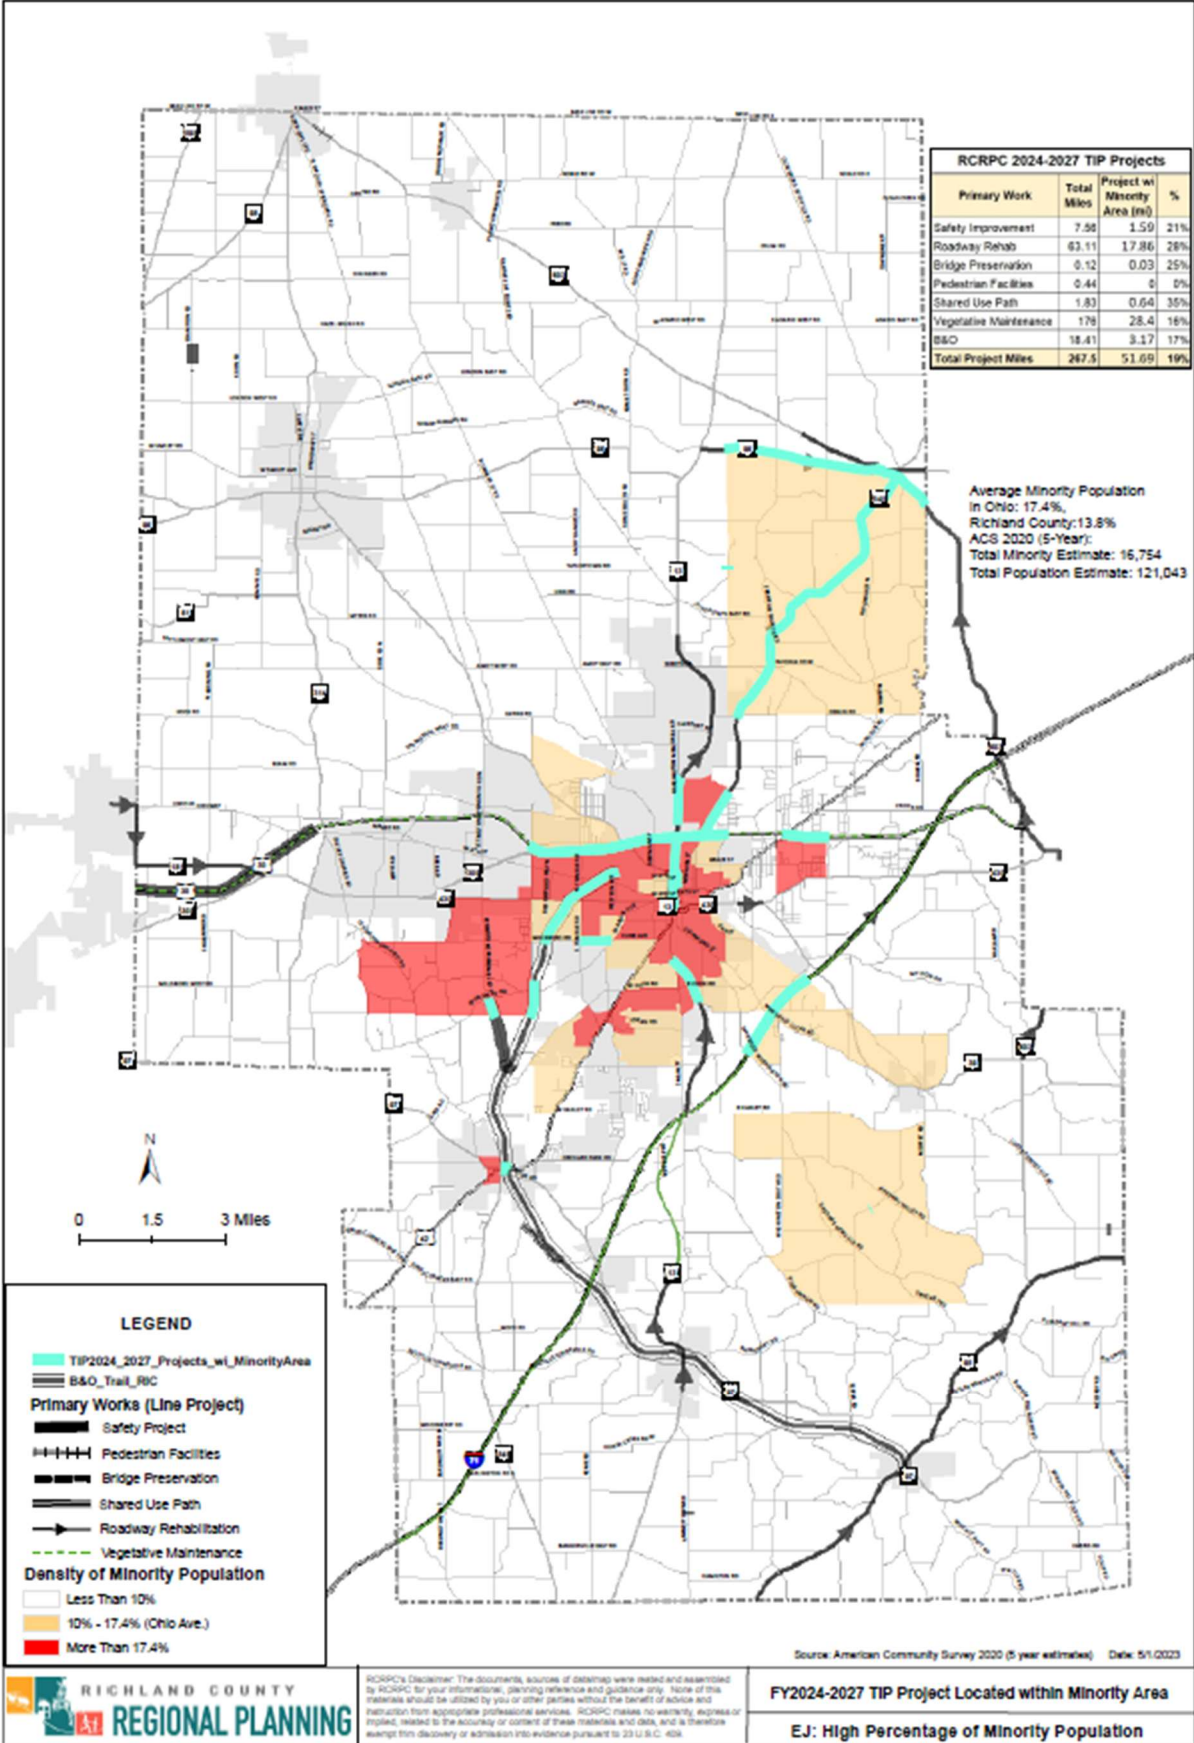

Projects in Targeted Neighborhoods		
Area	Population	Percent of county
Poverty Tracts	27,762	22.30%
Minority Tracts	24,638	19.79%
Both	30,273	24.31%
County	124,504	100%

Poverty Area

RCRPC 2024-2027 TIP Projects			
Primary Work	Total Miles	Project wi FPL Area (mi)	%
Safety Improvement	7.56	1.1	15%
Roadway Rehab	63.11	23.08	37%
Bridge Preservation	0.12	0	0%
Pedestrian Facilities	0.44	0	0%
Shared Use Path	1.83	0.64	35%
Vegetative Maintenance	175.98	37.08	21%
B&O	18.41	5.83	32%
Total Project Miles	267.45	67.73	25%

Minority Area

RCRPC 2024-2027 TIP Projects			
Primary Work	Total Miles	Project wi Minority	%
Safety Improvement	7.56	1.59	21%
Roadway Rehab	63.11	17.86	28%
Bridge Preservation	0.12	0.03	25%
Pedestrian Facilities	0.44	0	0%
Shared Use Path	1.83	0.64	35%
Vegetative Maintenance	176	28.4	16%
B&O	18.41	3.17	17%
Total Project Miles	267.5	51.69	19%

CHAPTER 5

TITLE VI AND ADA COMPLIANCE

Title VI

Richland County Regional Planning Commission acknowledges the importance of ensuring that everyone has the opportunity to be involved in the region's transportation planning process, regardless of their background or abilities. Title VI of the Civil Rights Act of 1964 states that "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance". As a recipient of federal funding and as required by Title VI, Richland County Regional Planning Commission has adopted the following non-discrimination policy:

Richland County Regional Planning Commission Title VI Non Discrimination Policy Statement
To effectuate Title VI of the Civil Rights Act of 1964, during the performance of its work as a Regional Planning Commission and as the MPO for the Mansfield - Richland County area, the following shall be the policy of the Richland County Regional Planning Commission (hereafter RCRPC): RCRPC assures that no person shall, on the grounds of race, color, or national origin, as provided by Title VI of the Civil Rights Act of 1964 and the Civil Rights Restoration Act of 1987 (PL 100.259), be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any agency-sponsored program or activity.

Any person who believes that he or she has been excluded from participation in or has been denied the benefits or services of any program administered by Richland County Regional Planning Commission, on the basis of race, color, national origin, gender, age, disability or income status may file a complaint of discrimination under Title VI, other non-discrimination statutes, and executive orders. A complaint may be filed directly with Richland County Regional Planning Commission, the Ohio Department of Transportation (ODOT), the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA). Please contact Jotika Shetty at 419-774-6202 or jshetty@rcrpc.org to file a complaint or if you have any questions. You may also refer to the Richland County Regional Planning Commission "Title VI/Non Discrimination Program 2016"

https://www.rcrpc.org/_files/ugd/bbcc36_a83f0e590fe34673a0defdf70fbea9e8.pdf
(Appendix B) for additional information and any related forms and procedures.

Throughout the SFY 2024 - 2027 planning process, Richland County Regional Planning Commission engaged in a number of outreach measures to ensure that the various Title VI communities had the opportunity to participate in the transportation planning process. These outreach measures included:

- RCRPC holds public meetings at convenient and accessible locations and times.
- RCRPC makes public information available in an electronically accessible format.
- RCRPC uses input from "Interested Parties" such as general public, local businesses including their employees and customers, institutional services, local governments, civic and community associations, special Interest groups, transportation system users, providers of public and private transit services, providers of freight /shipping services, representatives of pedestrian/bicycle users and transportation facilities representatives of the disabled populations, Environmental Justice (EJ) populations, Limited English Proficiency (LEP).

Richland County Regional Planning Commission embraces diversity and inclusivity and provides an environment of non-discrimination. The SFY 2024 - 2027 TIP planning process was conducted with these important considerations in mind and is compliant with all Title VI regulations and requirements.

ADA

The Americans with Disabilities Act (ADA) prohibits discrimination based on disability and requires all public agencies to provide safe, equal access to their programs, activities and facilities. Richland County Regional Planning Commission values the input of all the region's residents into the transportation planning process, and took the following measures to ensure that everyone, regardless of their abilities, could access and engage in the SFY 2024 - 2027 TIP planning process:

RCRPC has all of their public meetings in locations that meet the Americans with Disabilities Act (ADA) standards. Most meetings take place at the RCRPC Office which is ADA compliant, however if for any reason the public involvement is moved then RCRPC will chose a locations that accommodates the disabled population. ADA compliant parking and transit facilities are available, as well as accommodations for the visually or hearing impaired

Richland County Regional Planning Commission carefully considered the needs of all of our region's residents throughout the SFY 2024 - 2027 TIP planning process, meeting or exceeding all ADA requirements.

CHAPTER 6

PUBLIC INVOLVEMENT

As the primary near-term project implementation document for the Richland County Regional Planning Commission region, it is imperative that all of the region's stakeholders have the opportunity to engage in and provide their input into the TIP development process. As required by federal regulation (23 CFR 450.316), Richland County Regional Planning Commission has adopted a Public Involvement Plan. This document details RCRPC public involvement process for all of its principle duties, including the development of the TIP document, which was developed in a manner consistent with the Richland County Regional Planning Commission public participation plan. This plan may be accessed in Appendix C.

Public Comment Period

The draft RCRPC TIP document was presented for public comment March 16, 2023 through April 10, 2023.

As per the RCRPC Public Involvement Plan, notifications were done through press releases, email and social media. The document and comment were will be available on rcrpc.org. Physical copies of the TIP and comment sheets were made available to the public.

A summary of the public involvement communications is available in Appendix D.

CHAPTER 7

PREVIOUS TIP ACCOMPLISHMENTS

The following table lists the construction projects completed during the SFY 2021-2024 TIP.

PID	Project Name	Letting Type	Primary Work Category	Contract Amount	FY

CHAPTER 8

PROJECTS

This chapter provides an overview of the project listings in the SFY 2024 - 2027 TIP. The projects are one of three categories; Individual, Group, or Transit.

Grouped Projects

Grouped projects (formerly known as Statewide Line Items or SLIs) reflect categories of projects that are not considered to be of appropriate scale for individual identification in the TIP. Instead, these projects are grouped into categories by function, work type, and/or geographic area. Projects utilizing these groupings must be:

- Non-controversial in nature
- Have an air quality status of “Exempt”
- Have a negligible environmental impact
- Will not add capacity to the existing system
- Have a total project cost below \$30 million

Individual Projects

This section provides the project lists of the individual highway and transit projects scheduled for some phase of implementation during the SFY 2024 - 2027 TIP period.

All of the projects detailed in this section are consistent with the Richland County Regional Planning Commission long-range transportation plan, [Direction Looking Forward 2045].

Transit Projects

Transit projects reflect projects funded primarily with Transit designated funding.

Project Map:

The following maps illustrate the locations of the projects from the tables above.

Chapter 9

FISCAL CONSTRAINT ANALYSIS

For a project to be included in the TIP, per federal regulations, reasonable fiscal constraint must be maintained. Fiscal constraint is achieved by keeping estimated transportation improvements within reasonably anticipated budgets. Richland County Regional Planning Commission affirms that its SFY 2024- 2027 TIP meets all fiscal constraint requirements. The ODOT STIP addresses the fiscal constraint for projects included in the TIP that are financed with ODOT controlled funding sources.

The tables below provide an overview of the estimated revenues and expenditures for the Richland County Regional Planning Commission region for the SFY 2024 - 2027 TIP period.

Highway TIP Fiscal Constraint for RCRPC Region

Chapter 10 Resolutions

RESOLUTION 23-14

OF THE COORDINATING COMMITTEE OF THE CONTINUING COMPREHENSIVE
LAND-USE AND TRANSPORTATION PROGRAM FOR RICHLAND COUNTY, OHIO

A RESOLUTION ADOPTING THE TRANSPORTATION IMPROVEMENT PROGRAM FY2024 – FY2027

WHEREAS, the Coordinating Committee of the Continuing Comprehensive Land-Use and Transportation Program of the Richland County Regional Planning Commission who is designated as the Metropolitan Planning Organization (MPO) for the Mansfield urbanized area by the Governor acting through the Ohio Department of Transportation (ODOT) in cooperation with locally elected officials of Richland County; and

WHEREAS, the MPO, pursuant to 23 USC 134/49 USC 5303(j)(1)(d) and 23 USC 135/49 5304(g)(1) developed the Long Range Transportation Plan and approved it June 24th 2020; and

WHEREAS, the MPO, has prepared and reviewed a Transportation Improvement Program for fiscal years 2024 – 2027 and found the projects consistent with the approved Long Range Transportation Plan for Richland County.

NOW, THEREFORE, BE IT RESOLVED THAT, the Coordinating Committee of the Continuing Comprehensive Land Use and Transportation Program for Richland County:

Adopts the Transportation Improvement Program for fiscal years 2024 – 2027 and recommends incorporating these improvements into local government improvement programs.

Certification:

The foregoing resolution was approved by the Coordinating Committee of the Continuing Comprehensive Land-Use and Transportation Program of the Richland County Regional Planning Commission at its regular meeting held on May 24, 2023.

RESOLUTION 23-12

OF THE COORDINATING COMMITTEE OF THE CONTINUING COMPREHENSIVE
LAND-USE AND TRANSPORTATION PROGRAM FOR RICHLAND COUNTY, OHIO

A RESOLUTION CERTIFYING THE URBAN PLANNING PROCESS

WHEREAS, the Coordinating Committee of the Continuing Comprehensive Land-Use and Transportation Program of the Richland County Regional Planning Commission who is designated as the Metropolitan Planning Organization (MPO) for the Mansfield urbanized area by the Governor acting through the Ohio Department of Transportation (ODOT) in cooperation with locally elected officials of Richland County; and

WHEREAS, in accordance with the Infrastructure Investment and Jobs Act (IIJA) also known as the "Bipartisan Infrastructure Law" (BIL) RCRPC hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is conducted in accordance with all applicable requirements including;

23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;

Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;

49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or again employment or business opportunity;

Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;

23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;

The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;

Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and

Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

NOW, THEREFORE, BE IT RESOLVED THAT, the Coordinating Committee of the Continuing Comprehensive Land Use and Transportation Program for Richland County:

Certifies, in consideration of the requirements listed herein and to the degree appropriate for the size of the area and the complexity of its transportation problems, that the urban transportation planning process is being carried out in accordance with all applicable federal requirements as outlined in the Bipartisan Infrastructure Law (BIL)

Certification:

The foregoing resolution was approved by the Coordinating Committee of the Continuing Comprehensive Land-Use and Transportation Program of the Richland County Regional Planning Commission at its regular meeting held on May 24, 2023.

PUBLIC INVOLVEMENT SUMMARY

TIP Review - USDOT Comments

FHWA Planner: *Andy Johns*

FTA Planner: *Deidre Wesley*

Overall/General Comments

- *There is no reference to the Bipartisan Infrastructure Law.*
- *Resolution: Added to Introduction*

Specific Comments

- *Page 95, should MAP 21 requirements be changed to Bipartisan Infrastructure Law requirements?*
 - *Resolution: This is an Appendix of an approved document that cannot be modified*
- *Page 105 should indicate updating LAP with the 2020 census*
 - *Resolution: This is an Appendix of an approved document that cannot be modified*
- *Page 171 should indicate using 2020 census data and not 2010 census data.*
 - *Resolution: This is an Appendix of an approved document that cannot be modified*
- *Appendices are blank*
 - *Resolution: Final Version will be in pdf form, eliminating formatting problems.*
- *Will RCPRC provide an EJ analysis prior public involvement and final TIP adoption.*
 - *Resolution: Maps and projects and EJ areas have been added to the March draft and final analysis will be completed upon conclusion of Public Involvement*

ODOT Office of Statewide Planning & Research

- *pp. 11-12: After MPO adoption of targets, it was discovered that FHWA requires 2-year targets for all measures. Like other measures, ODOT set 2-year targets equal to 4-year targets. Please update the 2-year target for the following measures:*
 - *Percentage of Interstate Pavements in Good Condition*
 - *Percentage of Interstate Pavements in Poor Condition*
 - *Percent of person-miles traveled on the Non-Interstate NHS that are reliable**Resolution: 2 year targets are in the Chart*
- *p. 16: Suggest the following edit:*

Underserved populations typically refer to racial and ethnic minorities, disabled, or people living in poverty.

Resolution: Corrected
- *pp. 17-18: The draft TIP for public involvement needs to show the EJ analysis of the draft 2024-2027 TIP.*

- *p. 22: Suggest the following edit:*

The following table illustrates the projects completed during the SFY ~~2020-2021~~ -2024 TIP cycle

Resolution: Corrected

- *pp. 30-42: The highway project listing is missing the Sponsoring Agency column. Please add this information.*

Resolution: Added

- *pp 42-43: This table (Transit Grouped Project Summary) also appears on p. 57. We recommend removing the one on pp. 42-43 because it follows the Highway project listing.*

Resolution: Corrected

- *pp. 44-55: The transit project listing is missing the Sponsoring Agency column. Please add this information.*

Resolution: Included as Grantee Agency

- *p. 56: This table (Highway Grouped Project Summary) also appears on p. 42. We recommend removing the one on p. 56 because it follows the Transit project listing.*

Resolution: Corrected

- *p. 58: Include in the fiscal constraint analysis (Ch. 9) a narrative statement confirming that the ODOT STIP addresses the fiscal constraint for projects included in the TIP that are financed with ODOT controlled funding sources.*

Resolution: Corrected

- *p. 62: The final TIP document, due May 1, should have a signed resolution adopting the TIP update. The draft resolution has a date of May 24. Please ensure that the submittal of the resolution after the due date has been coordinated with the ODOT STIP Coordinator.*

Resolution: This is being addressed, RCRPC Mtg schedules create these minor delays

In Person Discussions

Andy Romoser – Roadway Superintendent Washington Township
Discussed Township Road pavement Striping options

Response

Hello Andy,

Thank you for attending the ODOT and RCRPC open house. We greatly appreciate your attendance and feedback. I am always available to answer any questions you may have at ahillwarren@rcrpc.org.

Just to recap our discussion:

1. White topping is essentially adding a surface course of concrete laid on top of existing asphalt.
2. State Route 13. Currently, there are no resurfacing projects on the books through 2027. The current pavement condition index is a 76 out of 100. It is safe to assume ODOT will look into treating this roadway shortly after FY2027.
3. PID 113285 consists of two culvert repairs on US-42. RIC-042-06.01/06.02
4. Striping on Township Roads: Currently, RCRPC is investigating the feasibility of a county wide pavement assessment. It is RCRPC's hope that this assessment will aid all of our jurisdictions with decision making concerning pavement repairs/replacement as well as timing for pavement markings for all non-ODOT maintained roads in the county. We will contact you soon to discuss the details of this program.

Wes Dingus – Mayor Village of Butler

Discussed Construction schedules of various projects in and around are of Village

Response

Hello Mayor Dingus,

Thank you for attending the ODOT and RCRPC open house. We greatly appreciate your attendance and feedback. I am always available to answer any questions you may have at ahillwarren@rcrpc.org.

Mike Switzer – Mifflin Township

as you know, Emails are currently circulating involving Mifflin Township, ODOT, RIC County Engineer, and RCRPC to figure out the best approach at getting the Koogle Road section near the US 30 / IR 71 Ramp system addressed.

Response

We will continue to monitor this situation and keep everyone updated.

Bryan Verberg – Village of Shiloh

Response

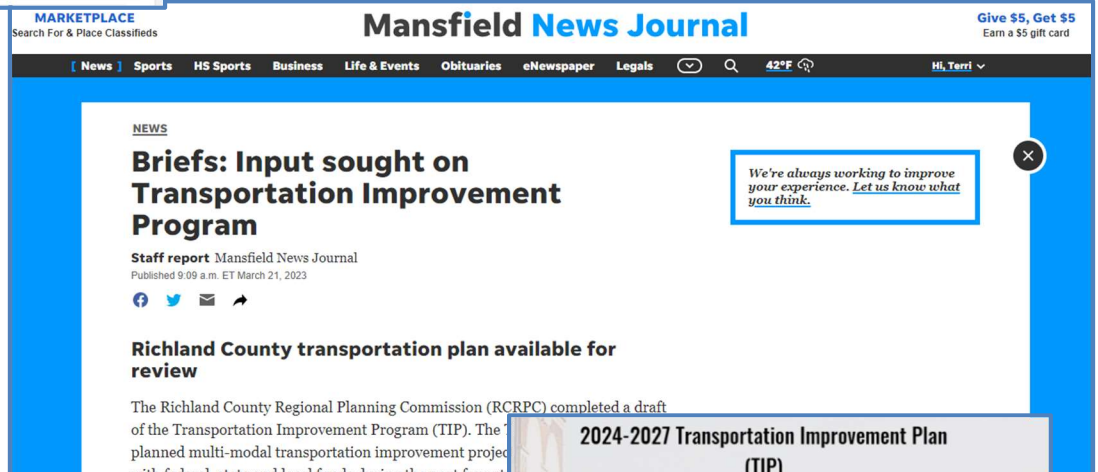

Hello Bryan,

Thank you for attending the ODOT and RCRPC open house. We greatly appreciate your attendance and feedback. I am always available to answer any questions you may have at ahillwarren@rcrpc.org.

After verifying the completion schedule for the village waterline project, RCRPC has entered discussion with ODOT to schedule paving on State Route 603 within the village of Shiloh. We will let you know when ODOT determines a timeframe.

Tell us more: The plan is fiscally sound and well stated. In particular, on TIP page 4, the plan states the goals under which actions would be directed. The lastly listed goal - Quality of Life - correctly identifies the need to offset economic and environmental impacts resultant of major projects. This, of course, is done to "Protect the environment from any adverse impacts of the transportation system," and "Support active living, universal design, and place making."

As is known to all relevant county agencies, a majority of Richland County water funnels south through the Clear Fork Valley. Roads/highways in this area can be subject to damaging water dynamics, including parts of St. Rt. 97 as it runs between Bellville and Butler. This state route is scheduled for major repair in 2027 (TIP) at the same time the area is predicted to experience generational growth.

In the interest of protecting Southern Richland County from (impending) damaging flood waters, Richland County/State of Ohio should consider mitigating flooding factors along the Clear Fork River as a function of congruent and dependent projects. The state scenic river - already a big part of the "active living" for residents and tourists as highlighted in the TIP - is simply unable to handle the additional runoff that will be created by recently announced infrastructure/housing/recreational projects such as the new Y facility and housing developments along St. Rt. 97 parallel to the river.

As Richland County Regional Planning Commission continues to drive infrastructure improvements, perhaps this TIP may be shared with agencies directly responsible for public works monies. ODOT, ODNR, SWCD, MWCD, State of Ohio, Richland County Commissioners and others will all have stake in the success of our area, and a responsibility to tackle projects under their purview.

Well done, and please continue the efforts. When it comes to true infrastructure planning and management - of which river management is part - I would argue what benefits one area benefits the entire county. Thank you.

Response:

?? SR 95, not 97 from Butler north to Ashland County ??

Tell us more: I am in favor of the two multiuse trail extensions (PID 118245 & 119146) from the B&O Trail to Marion Avenue. However, a multiuse trail should be 10' wide and separated from the traffic roadway by at least 6' of space in order to avoid confusion caused by bicyclists or skaters on the trail approaching oncoming vehicles on the adjacent roadway. It may be reasonable to place the trail along the south side of Millsboro Road from the B&O to Trimble Road but there could be problems as it approaches Marion Avenue due to the new expansion of the Art Center. Placing the new trail on the north side of Millsboro would create extensive damages to the private properties along this area. I recommend looking at placing the new trail from Trimble Road to Marion Avenue behind (south of) Discovery School and the Art Center. Multiuse trails are intended to be rural in nature so this location would greatly enhance the proposed extension (although RW acquisition costs increase). Note: Placing the new trail along both sides of Millsboro Road should not be considered since that would accommodate bicycles but would be dangerous for children and pedestrians.

Response

Good afternoon,

The Millsboro project, PID 118245, is only between Marion Ave and Trimble Rd. The path will be on the South side of Millsboro, be 10' wide, and will be 6' from the curb. It is essentially at stage 2. The City originally intended to handle the project themselves, however, but ended up needing additional construction money from RCRPC. The City is working with the Art Center, in accordance with their landscaping plan, allowing for the trail to wind around some groups of trees before connecting back to the intersection. The goal was to fill the sidewalk gap in this area and the City intends to use a 10' sidewalk/trail whenever possible. The sidewalk from Millsboro Rd to Marion Ave will eventually be upgraded to a 10' path as well.

PID 119146 is the B&O trail connector, which will be tunneled under Trimble Rd near the entrance to Akron Children's Hospital, and wind its way through the conservancy land on the west side of Trimble Rd. This connector will be primarily comprised of concrete, though there are plans for some boardwalk sections.

The Lex-Springmill Road (CR 133) shoulder widening project (PID 117238) is badly needed but I fear the costs shown are not realistic. The main hill section in the middle has the steepest grade of any major traffic roadway in the County. Only Straub Road at SR 42 is steeper and it does not carry anywhere near the traffic of CR 133. Also, the recent increase in semi truck traffic on this section of CR 133 has exacerbated the need for wider pavement lanes and wider shoulders along the entire length of this project. The FHWA should not approve design exceptions along this roadway for lane width, shoulder width, or roadway grade for the steepest section of the hill since the traffic volume is as great as that on SR 42. Providing the proper design parameters would greatly increase the costs for the project, especially for RW acquisition. Even if design exceptions are used, the present estimate for RW acquisition appears very low. The southern portion of the hill is nearly straight up on the eastern side and very steeply down on the western side. Widening the shoulders would require large portions of RW in this area and the \$50,000 shown for acquiring new RW would not go far under the current price of land in this area. We have waited nearly 40 years for improvements to this section of CR 133 (and projects were previously shown on the TIP). Hopefully something can be completed but it should include as much widening as possible.

Response:

It is the MPO's understanding that the plan for Lexington-Springmill Rd. came from a safety study performed for the County by EMH&T throughout the entire corridor. RCRPC was not a participant in the study. We believe that ODOT threw a quick safety application together. It is likely this will be constructed alongside the roundabout at Home Rd. however, ODOT has not made the final determination on that yet. Construction Engineering is not eligible for Safety Funds. Typically RCRPC offers MPO money for construction engineering at 90/10. RCRPC understands your concern with this project and will reach out to the Richland County Engineer. RCRPC has not seen a scope for this project yet, if one exists at all.

I believe this plan is very good.

Great job!
Good vision!
Thorough!

Response

Thank you for attending the ODOT and RCRPC open house. We greatly appreciate your attendance and feedback. I am always available to answer any questions you may have at ahillwarren@rcrpc.org.
